

## Biennial Index

### Spring 1990–Autumn 1991

By George M. Jenks

This index covers numbers 162, 163, 164, and 165 of *Railroad History*, Spring 1990 through Autumn 1991. The previous biennial index, covering numbers 158 through 161 (Spring 1988 through Autumn 1989) appeared in *Railroad History* 162, Spring 1990.

Every article is indexed under the name of the author, the title, and usually one or more subject headings. Locomotive rosters are listed under that heading and also under the name of the railroad with the sub-heading *locomotives*. Book reviews are indexed only by title under that heading. Book titles are italicized. The number of the issue is in bold-face type, and the inclusive page numbers follow.
